Proposed request for a 1-year extension to allow for the work on the Pastoral Letter on Disability and Access

The Ad-Interim Committee on Disability and Access recommends that the 46th General Assembly APPROVE a 1-year extension to allow for the work on the Pastoral Letter to gather feedback and input from our presbyteries, bringing the Pastoral Letter on Disability and Access to GA 2027.

Rationale: The subject is so important and our desire to be sure this pastoral letter is as comprehensive as possible caused us to realize we were not quite ready. This extension will allow us to engage with our presbyteries and create a resource that will truly be helpful.
