

Estimate Your Costs

Looking to budget your dental costs? Try the Cost Estimator. This feature of Delta Dental's online account gives you a personalized estimate of how much you'll pay for your next dentist visit.

Whether you're getting braces or need a cavity filled, you'll choose from the most common dental services, described in everyday language. The Cost Estimator organizes information logically, so you don't need to be concerned whether your treatment involves multiple procedure codes or visits.

Advantages

- **Easy to use.** Questions guide you through the process, letting you add services to your visit, like getting x-rays or a cleaning alongside your dental exam.
- **Based on real data.** Your cost estimate is calculated from actual claims Delta Dental has processed, updated daily.
- **Personalized.** You'll get a customized cost based on your actual benefits, taking into account any maximums and remaining deductible.
- **Available on desktop and mobile.** Get an estimate on your computer, tablet or phone.

Features

- **Change your dentist.** Want to know if you'd save by switching to another dentist? Test it out by comparing up to five dentists.
- **Personalize your procedure.** Specify which tooth is being treated, the type of filling you need or whether you're going to a specialist. The price will be calculated accordingly.
- **Keep track of your benefits.** A handy sidebar shows the current status of any deductibles and annual and lifetime maximums.
