

## Take advantage of your remaining 2020 vision benefit value!

Have you had your routine eye exam yet in 2020? Replaced your lenses or contacts? Your EPC vision benefit provides you and your covered dependents with an annual eye exam for just a \$10 co-pay (in-network) and provides coverages for lenses or contacts and new frames. If you are enrolled in the EPC Plan and haven't used your benefit yet this year, be sure to make an appointment to take full advantage of this year's benefit value. You can find detailed coverage information [here](#). Or, you can contact EyeMed today at 1-866-723-0596 or [log in to your account](#) to verify what benefits are available to you based on your last date of service. So make that appointment today!

## Creditable Coverage Letter

Each year, EPC Benefit Resources is required by federal regulations to send a creditable coverage notice to all health plan enrollees. You should receive it this week and may wonder what it is all about. It is important reading if you are Medicare eligible or will become Medicare eligible over the next year. It tells you that you have Creditable Coverage through your EPC medical/Rx benefit and why that is important to know when it comes time to enroll in Medicare and a Part D prescription drug plan. If you are not in that age category yet, then you needn't put the letter on your required reading list.
